

PRCCI 2022

PROFESSIONAL TRAINING program

PRCCI comprehensive clinical investigation training program
WILL RUN FROM FEBRUARY – NOVEMBER 2022
providing learning opportunities for a wide range of professionals in the science field.

If you are interested in getting to know about the clinical research high demand profession or are a clinical investigation practitioner interested in further advancing your career, this program will certainly meet your development needs. **Our virtual program is flexible and among others will provide networking opportunities with participants and the PRCCI team.**

- **Registration Deadline:** by event day
- **All courses virtually by gotomeeting**
- **Participants:** will receive a certificate upon full completion of training. A certification will be conferred to those attending the CRC Training.
- For additional information please contact: **mitzy.gonzalez@prcci.org, (787) 430-1776**
- **Coming soon:** Approved names of speakers and further information.

Subsidiary of the:

GOOD CLINICAL PRACTICE (GCP)

Feb 24 | 5:30 PM to 7:30 PM | **\$40.00**

Registration Link: <https://www.eventbrite.com/e/269887760557>

Brief summary of GCP history and the most important regulations and responsibilities established by International Council on Harmonization according to the Helsinki Declaration for Principal Investigators and all research staff responsible for developing clinical research.

FORUM: THE ROLE OF WOMEN IN CLINICAL RESEARCH

March 3 | 10:00 AM To 11:30 AM | **Free**

Registration Link: <https://www.eventbrite.com/e/273016157677>

Event focuses on in-depth description around the current and past impact of women's participation in the field of clinical studies, including professional and scientific women's contributions to the field of research. The participation of women as subjects of research studies and the importance of their representation in protocols will also be discussed.

August 10 | 10:00 AM – 11:30 AM | **Free**

Registration Link: <https://www.eventbrite.com/e/274920944947>

Professionals with vast experience discuss topics such as:

- Why should I, as a health professional, enter the field of clinical research?
- How has the clinical research career evolved? How can the career of other colleagues and health professionals also evolve?
- At which stage is the clinical investigation in PR and in which direction it is heading to?
- Where are we as professionals and where are we moving to?
- Benefits and responsibilities arising from the dual role.
